Dear Mrs. Martin:

I very greatly appreciate your gracious letter of October 10, and your kindness in sending me a copy of your letter to the editor of the San Francisco Examiner.

The newspapers have had a tendency to give a sensational cast to most of what they have written about Glide and have failed to recognize its underlying purpose and mission.

I am very happy to have your interpretation and intelligent appraisal of what Glide is trying to do. You will understand, of course, that I have been under tremendous fire because of what is happening at Glide Church and so to receive a letter of commendation such as yours is a heart-warming experience.

Please accept my hearty thanks.

Faithfully yours,

Donald Harvey Tippett
